

Bilcare's research based Innovative product range combined with state-of-the-art technology meets the highly specialized demand of pharmaceutical packaging for product security and brand enhancement.

Bilcare blister films & foils are the most cost effective & novel design pharmaceutical packaging systems excelling international quality standards.

Product	Technical Description	Features
patina®	PVC based metallized multi-layer films	Metallized Films in different colours
protect®	Novel embedded image metallized blister film Differential Grated PVC	Overt Branding and Anti-counterfeit solutions - Low sensitive drugs
secure®	Novel embedded image Blister Film Differential Grated PVC/PVdC	Overt Branding and Anti-counterfeit solutions - Mid to high sensitive drugs
spectra™	Printed PVC mono	Overt Branding and Anti-counterfeit solutions - Low sensitive drugs
spectra plus™	Printed PVC/PVdC 250/40; 250/60; 250/90	Overt Branding and Anti-counterfeit solutions - Mid sensitive drugs
Aclar®	PVC/Aclar and PVC/EVOH/Aclar 250/23; 250/51; 250/76; 250/102; 250/150; 190/70/23; 190/70/51; 190/70/76;190/70/102	Excellent multilayer barrier film ideal for sensitive to high sensitive drugs
crispak™	Paper/Al/HSL 35 gl paper/9 Al foil/ 7gsm coating 41 gl paper/9 Al foil/ 7gsm coating	Push-Through and Peel-Push type CR lidding material
Suppository Films	PVC/PE PVC/PVdC/PE	Solid dose suppository & single dose liquid pack
Anti-counterfeit solutions	UV Ink Printing Micro text	Covert/Overt features for Anti-counterfeit

Product	Technical Description	Features
exxtra®	PVC mono 200, 250, 300, 350 microns	Low Sensitive Drugs
duplex®	PVC/PVdC - <i>customized</i> 250/40; 250/60; 250/90	Mid Sensitive Drugs
triplex®	PVC/PE/PVdC - <i>customized</i> 200/25/60; 250/25/90; 300/30/90	Sensitive and High Sensitive Drugs
exel®	PVC/PE - <i>customized</i> 200/25; 250/25	Used in Medical & Healthcare Packaging
ultra®	Metallized PVC/PVdC - <i>customized</i> 250/60; 250/90	Mid Sensitive Drugs
ultra tx®	Metallized PVC/PE/PVdC - <i>customized</i> 250/25/60; 250/25/90	Sensitive and High Sensitive Drugs
nova®	Glassine Paper - 50gsm, coated with 20gsm PVdC	Eco friendly lidding material for stable drugs
zeon™	Al lidding foil 20, 25, 30 microns	Compatible with PVC
zeon plus™	Al lidding foil 20, 25, 30 microns	Compatible with PVC & PVdC
zeon xt™	Al lidding foil 25 microns	Compatible with PVdC
zenith™	Strip Foil 30 microns soft Al/PE 30 microns soft Al/HSL	For sensitive drugs
venus™	OPA/AL/PVC	Highly Sensitive drugs
